## STORYTELLING ETHICS

Through our experience-led, survivor-centered work, EverFree is **shifting the narrative**.

We believe that survivor stories and experiences should lead the way. And everyone—from activists and advocates in the sector, to all allies and supporters—has a role in amplification.

Below are general guidelines and resources to ensure our collaborative storytelling is ethical.

- Avoid "savior" language, paternalistic or condescending language, or language that disempowers.
- Avoid "poverty porn" and other exploitative media that depends on shock value.
- Be mindful of how media may contribute to "othering" a culture or perpetuating stereotypes.
- Be factual and genuine in your storytelling, rather than prioritizing juicy headlines.
- Recognize that humans are and complex, multi-faceted rather than reduced to single moments, trauma, or pain—stories are dynamic.
- **Survivors own their stories.**

We love the following resources and guidelines:

### An Essay from an EverFree Scholar

At EverFree, we believe in preventing human trafficking before it takes root by empowering vulnerable communities with scholarships, counseling, and career opportunities. An EverFree scholar wrote about his journey in an essay entitled "The Pilot of My Own Destiny".

"I want to break the chain of limited access to education in my family and prove that despite our situation, I can still pursue my education and obtain a degree. It is a battle I want to win on behalf of my sisters and set an example for them that dreams are possible, regardless of our circumstances."
